The Just Speak Up series is designed to help English language learners develop their speaking skills through engaging conversations on various topics. The books contain over 60 hours of speaking practice, with more than 250 question prompts organized into 20 thematic units in each book. This provides students with a wide range of topics to discuss and helps them build confidence when approaching tasks that require speaking. This course aims to enhance students' speaking skills by focusing on detailing personal experiences, explaining opinions, and participating in class discussions. Key elements include: - Sample responses to questions for reference - Guided activities for organized thinking - Collaborative pair and group work to maintain engagement - Free MP3 CD with model intonation and pronunciation examples - Practical speech tasks based on real-life scenarios to boost performance and confidence - Role-playing exercises to stimulate learners' excitement and awareness - Colorful visuals to aid memory and usage in English
